Recipe: Identify when patients had their last mammogram recorded, who haven't had a mammogram recorded and who are ineligible for a mammogram.

- 1. Select the 'Screening' tab.
- 2. Select the 'Mammogram sub-tab

3. You can display the patients in one or more categories of the chart by double clicking on the corresponding part of the pie. You can also export the list of patients by clicking 'export'

This report will provide the practice with a list of female patients aged 50-74 years who have had a mammogram recorded in less than 1 year, 1-2 years, 2-3 years, 3-4 years, more than four years, who are ineligible and who do not have a mammogram recorded (depending on the slice that you export).
