- Q & A

Speakers & Panellists

Peter Do

Peter works in digital innovation as an Account Executive at Heidi Health. He has a background as a nurse and digital health experience from Oracle. Blending frontline care experience with a passion for technology, he helps clinicians adopt AI technology.

Learning Objectives

- Understand the capabilities of Heidi Health's AI tool and how it integrates with Medical Director to support clinical workflows.
- Observe a live demonstration of Heidi Health's AI tool in action, showcasing real-time documentation and decision support features.
