

# Addiction Medicine HealthPathways now available!

## Clinical topics include:

- Alcohol Brief Intervention
- Alcohol Withdrawal
- Benzodiazepine Withdrawal
- Cannabis Use and Withdrawal
- Drug Seekers
- Drugs of Abuse
- Methamphetamine (Ice)
- Addiction Medicine Referrals

*“This pathway clearly tells me what the process of transfer and exiting the programme entails, and offers good advice on monitoring these patients. The dosage titration drop down boxes, the flow of the links, and the information provided is easy to follow, and the resources are very useful.”*

*Dr Sherri Roberts*
